## UNIVERSITY OF BELGRADE FACULTY OF MEDICINE - STUDIES IN ENGLISH -

Welcome and thank you for your interest in Studies in English at University of Belgrade - Faculty of Medicine (UBFM). This flyer and our website will introduce you to some of the academic experiences and rich traditions that make UBFM a special place.

This is an exciting time to be with us and study embracing the new European curriculum designated to help a constant flow of medical students, faculty and knowledge throughout Europe. Moreover, Studies in English will enable you to treasure the wealth of overseas medicine and by understanding the world, will help you become leaders in the field.

Beograd, the "White City" founded by Celts in the 3rd century BC on the banks of two big rivers Danube and Sava will offer you the unique opportunity of walking by the ruins of Roman Empire, Turkish fortress and modern European buildings. Nature granted it with a pleasant climate, greenery and people with smiling faces famous for their hospitality.

## ABOUT SCHOOL

**THE UNIVERSITY OF BELGRADE - FACULTY OF MEDICINE**, founded in 1920, is the largest institution for training of physicians in Serbia as well as in Balkan region, and the UB is the oldest (1905) and largest one in the region with another 30 Faculties beside the Medical School and 80,000 students.

In the UBFM, clinical training and research are attached to the Clinical Center of Serbia and several large and highly specialized hospitals. The UBFM includes some 40 departments with about 200 professorships. A close linkage between graduate and postgraduate work and research ensures high academic standards. The UBFM also offers: residency programs, internships and fellowships for a broad spectrum of specialties, PhD studies, and continuing medical education programs for physicians and other health care professionals.

By the appointment of the Ministry of Health of the Republic of Serbia, as the integral part of UBFM, with the same curriculum approved by the authorities and recognized by the international medical associations, in 1995, English was introduced as a language of instruction. That was the beginning of **UNIVERSITY OF BELGRADE - FACULTY OF MEDICINE**.

In 2004 the new curriculum changed according to requirements of Bologna Declaration was introduced. The latest accreditation received in 2014. In the year 2012 University of Belgrade according to the ranking carried out by the Shanghai Jiao Tong University, better known as the Shanghai List, found its place among the top 500 universities in the world. In 2015 the University of Belgrade was listed among the top 400.

## SELECTION STANDARDS

**GENERAL QUALIFICATIONS.** BUSM Studies in English selects applicants who in the judgment of the Committee on Admissions demonstrate those qualities necessary for the successful study and practice of medicine. Among others, these qualities include academic achievement, good communication skills, emotional stability, maturity, diversity of interests, leadership, and motivation. The Committee considers the quality of all academic accomplishments of each applicant, as well as extracurricular experiences that demonstrate the applicant's initiative and creativity.

School of Medicine in its admission practice complies with federal nondiscrimination laws relating to national origin, religion, citizenship, race, sex, age, and handicap that do not compromise professional responsibilities.

**SPECIFIC REQUIREMENTS.** The qualifications required for admission to the BUSM Studies in English are evidence of intellectual ability and achievement, indicated by performance in high school courses and evaluations examinations, and suitable personal qualities as to character, attitude and interest.
